

FOR IMMEDIATE RELEASE

GARDE CO., LTD. TO RECEIVE A PRESTIGIOUS ASIA PACIFIC PROPERTY AWARD FOR INTERIOR DESIGN FOR THE ADIDAS JAPAN HEADQUARTERS OFFICE PROJECT, TOKYO

Following extensive judging for the Asia Pacific regional competition, GARDE Co., LTD. has been notified that it is among a select few winning interior design companies in the International Property Awards 2015-2016. GARDE Co., LTD. competed against a number of the region's leading interior designers to reach this important stage in the awards' programme.

Successful entrants have been invited to attend a high-profile gala presentation dinner at the Shangri-La Hotel in Kuala Lumpur on May 8th where the official announcements will be made and the winning companies will learn the level of their award – either highly commended or five-star.

The award winners' logo is an instantly recognised symbol of excellence throughout the global industry. Attaining one of these coveted awards proves that GARDE Co., LTD. has all the necessary qualities and professionalism to excel over other companies within the highly competitive Asia Pacific interior design arena.

The judging panel consists of over 70 highly respected experts from all over the world and is chaired by three active members of the House of Lords in UK Parliament: Lord Caithness, Lord Best and Lord Courtown. Later this year, the highest scoring winners from the Asia Pacific Property Awards will compete against other winning companies from Europe, Africa, Canada, the USA, Central and South America, the Caribbean and Arabia to find the ultimate World's Best in each category.

The Asia Pacific region has a consistently high success rate competing at international level. Last year it even beat its own record by scooping 20 World's Best Awards out of a possible 49. No other region has yet come close to achieving this impressive international score.

Stuart Shield, president of the International Property Awards, says, “Entries for the Asia Pacific region were up yet again this year with 25 different countries competing strongly across each and every category. It is immensely gratifying to be presented with such levels of excellence and be in a position to reward and promote winning companies not only regionally but also internationally.”

The International Property Awards will also host an Asia Pacific Property Summit on May 7th at the same venue. A number of professional networking events, including seminars, discussion tables and an exhibition will be attended by presidents, CEOs, managing directors, chairmen and other decision makers. Being open to all property related companies and suppliers, award participants and members of the public, the event offers an ideal opportunity to generate new business and form ongoing professional alliances.
