- Project 1: 25hours hotel (Copenhagen, Denmark)

1. 25HOURS COPENHAGEN

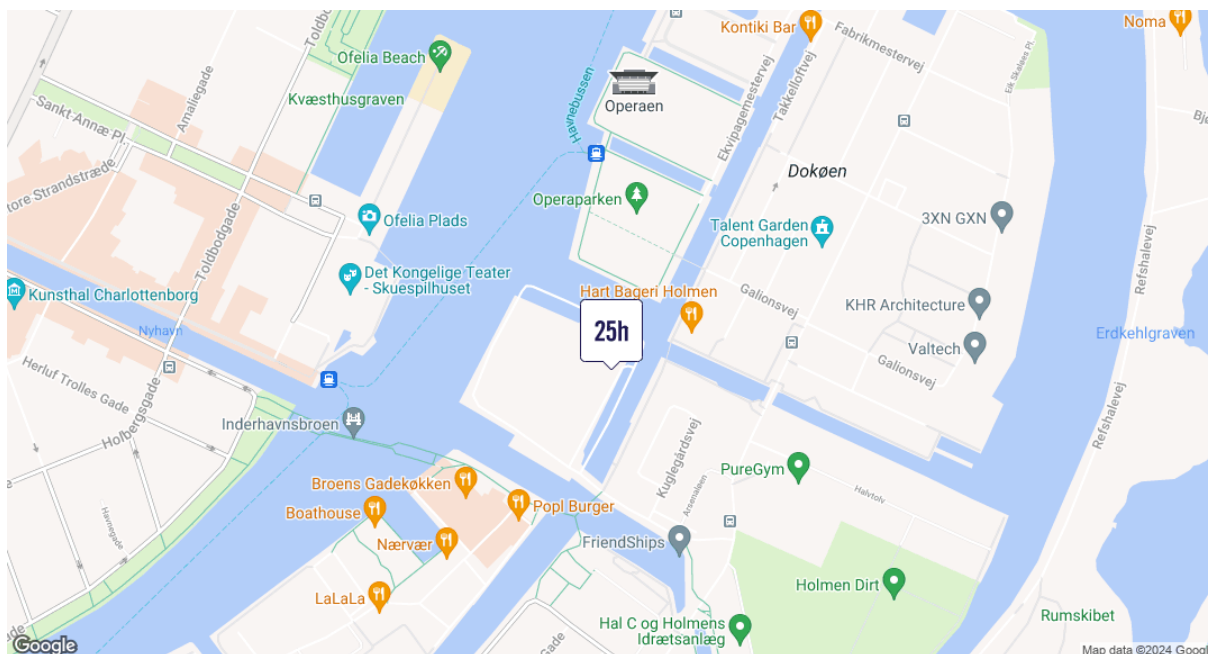

Project Overview

25hours Hotel Copenhagen Paper Island opened on 27 July 2024 on Christiansholm, also known as Paper Island, a former industrial area in Copenhagen harbor once used for shipyards, storage, and paper warehouses before its redevelopment into a mixed-use urban district. Designed as part of a new waterfront development by COBE Architects, the hotel includes 128 rooms, a restaurant, bars, and public spaces near Nyhavn and the Royal Opera House. The new building references the scale of former industrial halls, while interiors by Swedish studio Stylt Trampoli draw on the idea of a Scandinavian summer house. Design elements include light wood, muted coastal colors, brick floors, maritime references, and reused materials, with flea market objects and artworks reflecting the harbor's history. Public spaces include the Tiger Lily restaurant inspired by traditional food markets, the Nomad Day Bar with a quay facing terrace, and a rooftop bar with city views, creating an informal, residential atmosphere connected to the waterfront.
