

Press Release

June 2023

**[Invitation Ticket] GARDE's New Business "Metaverse Spatial Design"
Exhibits at Metaverse Expo Tokyo 2023.**

GARDE Corporation (headquartered in Minato-ku, Tokyo; President: Kenji Muro) is a leading interior design company, offering a wide range of design, consulting, and coordination services in Japan and abroad, has launched a new business venture, the design, production, and sales of Metaverse* spaces, starting in 2023. * Virtual space on the Internet

Under the concept of "infinite creation, one technology, into the unknown," GARDE launched its new metaverse business in 2023. By utilizing our network from a wide range of business fields and our strength in providing sophisticated designs that we have cultivated over the years; we aim to offer metaverse spaces created by our first-class architects that will stand out among other companies in the same industry.

At the Metaverse Comprehensive Exhibition, visitors can experience COCO WARP, the Metaverse Museum, which is scheduled to pre-open on June 15. The museum is designed and produced by GARDE and operated by Aoyama Design Forum. The metaverse space, constructed from the design drawings in the same way as the actual architectural flow, is a space that feels comfortable compared to the real world. On the day of the exhibition, visitors will be able to experience this world with an even greater sense of realism using VR goggles.

We look forward to seeing you at the exhibition.

◆About GARDE

As a branding and design firm, we design spaces for retail, offices, residences, hotels, food & beverage, and complexes in a variety of fields.

With a global network of talented designers and project managers with deep insights into diverse societies and cultures, GARDE embodies its clients' visions within each of its three pillars: consulting, design, and coordination; creating spaces that combine excellence in design and functionality.

In addition to its Tokyo headquarters, the firm has offices around the world in Milan, Paris, Hong Kong, Shanghai, Singapore, Kuala Lumpur, Dubai, New York, and Los Angeles.
